## INTRODUCTION:

I am a highly motivated and enthusiastic individual with a strong foundation in web development. Through various projects and personal initiatives, I have developed strong analytical, problem-solving skills. My expertise includes HTML, CSS, JavaScript, and Angular, enabling me to create dynamic and responsive web applications.

My passion for continuous learning and my proactive approach to tackling challenges make me a valuable addition to any team.

## PROJECTS:

### ○ **E-Commerce Management System:**

Contributed to the development of the user interface of an e-commerce platform using Angular 10, incorporating essential features such as reactive forms for seamless data input validation, custom pipes and directives for enhanced UI/UX, and efficient routing for dynamic page navigation. Where companies could list their products for sale. The platform charged companies for listing their products, providing buyers with a centralized marketplace to make purchases directly from the website. Ensuring improved cost transparency for customers to compare prices and make informed purchasing decisions directly from the website.

- Developed an e-commerce platform using Angular, focusing on increase in sales and user experience.
- Implemented RESTful services to handle data retrieval and manipulation, ensuring scalability and performance.
- Implemented responsive and user-friendly interfaces to enhance customer experience and increase conversion rates.
- Utilized Angular 10+ Versions along with frameworks and libraries to meet project requirements.

### ○ **Responsive Web Design Using Bootstrap and CSS:**

Technologies Used: HTML5, CSS3, Bootstrap 3, Bootstrap 4, JavaScript, Sass, Flex. Key Contributions: I have developed responsive user interfaces for multiple web applications using Bootstrap 3 and Bootstrap 4 frameworks, combined with custom CSS for enhanced styling.

### ○ **Angular CRUD Application:**

Technologies Used: Angular (Angular V.10+), JavaScript, TypeScript, Angular Material, Angular (RxJS), RESTful APIs, HTML5, CSS3, Bootstrap.

Key Contributions: I have developed a dynamic web application using Angular framework to perform CRUD operations (Create, Read, Update, Delete) on a dataset, showcasing proficiency in front-end development and Angular ecosystem. (Using Service, Routing, Directives, Pipes, Forms, Angular RxJS (Observables, Subject)).

I have implemented a responsive user interface with Angular Material for consistent design and UI components. Integrated RESTful APIs for data retrieval and updates, ensuring seamless communication with backend services and databases.

### **SKILLS:**

- Frontend Programming Languages/Framework: HTML, CSS, JavaScript, Angular (AngularJS, Angular 10), Angular (RxJS), TypeScript, Bootstrap3, Bootstrap4, Sass, Flex, NodeJS, SQL, Oracle.
- Tools: GITHUB, Visual Studio Code.

### **EDUCATION:**

Bachelor Of Engineering (B.E.)  
Amrutvahini College of Engineering, Sangamner  
Savitribai Phule Pune University (SPPU), Pune

**CGPA: 7.79**
