INTRODUCTION

I am a highly motivated and enthusiastic individual with a strong foundation in web development.
My passion for continuous learning and my proactive approach to tackling challenges make me a valuable addition to any team.

EXPERIENCE

Angular Developer   July 2023 – Present
GDigit InfoTech   Pune, India

PROJECTS

- **E-Commerce Management System:**

  Contributed to the development of the user interface of an e-commerce platform using Angular 10, incorporating essential features such as reactive forms for seamless data input validation, custom pipes and directives for enhanced UI/UX, and efficient routing for dynamic page navigation. Where companies could list their products for sale. The platform charged companies for listing their products, providing buyers with a centralized marketplace to make purchases directly from the website. Ensuring improved cost transparency for customers to compare prices and make informed purchasing decisions directly from the website.

- I have worked on an e-commerce platform using Angular, focusing on increase in sales and user experience.
- Implemented RESTful services to handle data retrieval and manipulation, ensuring scalability and performance.
- Implemented responsive and user-friendly interfaces to enhance customer experience and increase conversion rates.
- Utilized Angular 10+ Versions along with frameworks and libraries to meet project requirements.

SKILLS

- Frontend Programming Languages/Framework: HTML, CSS, JavaScript, Angular (Angular 10), TypeScript, RxJs, Bootstrap3/4, Sass, Flex.
- Tools: GITHUB, Visual Studio Code.
